MARINE ENGG. & SERVICES CO. FZC (L.L.C.)

M.E.S

Marine engineering and services a company established in 1980's located in Hamriyah free zone, Sharjah, U.A.E. It has a group of

- Highly qualified engineers.
- Well trained technicians, experienced and certified welders.

MES is capable of implementing all kinds of repair work such as survey, ship conversion, steel fabrication works for land, marine and constructing oil storage tanks vertically and horizontally. MES has the most advanced facilities at par with leading shipyards worldwide, we believe in providing the most efficient and cost effective services.

Vision

To be globally recognized as one of the best companies which complies with all national & international standards in the fields of marine, industrial and structural works.

Mission

Satisfying our clients, fulfilling all projects on the targeted time using the most modern and efficient technology.

Our Workshops

M.E.S workshops are within the covered shed (90 meter long and 30 meter wide), with two overhead cranes.

- ▣ Fabrication Shop
- ▣ Machine Shop
- ▣ Mechanical Workshop
- ▣ Electrical Workshop

Our Services

Ship Repair

Ship repair is the core services provided to Ship Owners by our Company over past 30 years. Docking repairs are carried out using our Floating Dock of size 55 mtr. length x 14 mtr. breadth and lifting capacity 1200 tons. The main activities are Steel renewal as per UT Gauging, Piping renewal, Propellers & Shafting, Under water, Hull Preparation and preservation as per IACS approved methods and Specifications.

Ship Building

We are proud to be the first company in Sharjah to successfully design and build a 55 m long ocean going landing craft launched in Oct. 2000 and continued the success by the completion of the following projects:

- ▣ Landing crafts (up to 60 meter length)
- ▣ 60 meter floating restaurant
- ▣ Accommodation barges
- ▣ Self propelled-self elevation barges
- ▣ Luxury yachts (steel construction)
